

Bridge of Incidents ■ The Basics

A Quick Guide to How the Universe Delivers Your Manifestation

What Is the Bridge of Incidents?

The Bridge of Incidents is the sequence of events that unfolds after you assume your wish is fulfilled. It connects your wish to its fulfillment.

Key Principle: Let Go of the How

Neville Goddard taught that your job is not to figure out how it will happen. Your role is to dwell in the feeling of your wish being fulfilled.

Signs You're on the Bridge:

- Unexpected opportunities or changes
- Sudden endings or reroutes
- Strong intuitive nudges or dreams
- People entering or exiting your life

How to Walk the Bridge:

- Stay in the assumption that it is already done
- Observe without judgment—everything is part of the path
- Journal synchronicities, emotions, and changes
- Trust that even 'delays' are divine timing

Remember:

The Bridge of Incidents may not always feel good, but it is always working for your highest good. Stay loyal to your wish.
